

MS PowerPoint 2016 Course Outline – Intermediate level

Course Objectives

This intermediate MS PowerPoint course is for anyone who understands the basics and wants to take their skills up one level. Suitable for those who have used PowerPoint to a basic level.

Course Description

By the end of this course you will be able to manipulate paragraphs and text alignment. You will also learn how to work with various line spacing and quickly re-use formatted text with the Format Painter. You will also learn how to work with objects and graphics and grouping, resizing, aligning, nudging them and cropping and compressing them. You will be able to fill background colours, apply shape borders, merge shapes and use the eye dropper tool. Lastly you will learn how to embed videos, insert sounds clips and create screen recordings.

Estimated Course duration is 45 - 60 minutes. Each lesson takes on average 3-5 minutes to complete.
