

MS Word Course Outline – Expert level

Course Objectives

This expert course in MS Word focuses on understanding how to use the more advanced features such as controlling content with ActiveX controls, sharing and securing content, managing styles and managing reference sources.

By the end of this course you will be able to understand XML, secure content by encryption, mark documents as final and use version history. You will be able to access the styles window and organise content with multi-level lists and line numbering. You will learn how to work with equations and learn more about macros. Lastly you will gain knowledge on inserting citations, generate a bibliography and add placeholders.

Estimated course duration is 3-4 hours. Each lesson takes on average 3-5 minutes to complete.

Topics covered

Controlling content

- Adding ActiveX controls
- Understanding XML
- The Schema library
- Tagging Word content

Sharing and securing content

- Document properties
